

Quality. Service. Value.®

# California Water Service

## Overview

California Water Service (Cal Water) serves about 2 million Californians in more than 110 communities, from Chico in the north to the Palos Verdes Peninsula in the south, including residents and businesses in the King City District. We are the second largest retail water provider in the state, and the largest regulated by the California Public Utilities Commission.

**We believe everyone should have access to water that is safe, clean, reliable, and affordable.** Providing this for our customers requires a proactive commitment to infrastructure investment, water quality, conservation, community safety, and equity.

### We are Industry Leaders in:

- **Water Quality:** Our drinking water is among the safest in the nation
- **Proactive Investment in Infrastructure:** We prioritize upgrades to keep water safe and reliable
- **Conservation & Sustainability:** We help customers save water while securing new supplies for the future
- **Low-Income Assistance:** We were among the first to provide bill assistance for low-income customers
- **Community Safety & Partnerships:** Our partnerships improve community safety and quality of life

### Cal Water Infrastructure by the Numbers

**7,900** miles of water mains

**1,135** wells

**681** storage tanks

**155,000+** valves

**50,000+** hydrants

**2,010+** sampling stations

**6** surface water treatment plants

**12** wastewater treatment plants

**\$719.7 million** invested in infrastructure projects over the past three years to ensure the continued safety and reliability of your water system

### Service Areas

We provide more than 80 billion gallons of water annually to 110+ communities across California

Quality. Service. Value.®

# King City District

Local Service with Statewide Support

Cal Water has provided high-quality water utility services in King City since 1962. To meet the needs of our King City customers, we utilize six wells, three storage tanks, seven booster pumps, and more than 34 miles of pipeline to pump and deliver up to 2.4 million gallons of local groundwater per day to more than 2,300 service connections.

## Infrastructure Investments in King City

We know that building and maintaining infrastructure are critical to delivering safe, reliable water service to the King City District.

Over the last decade, **Cal Water has invested \$6,801,842** locally, including installing new pipes, treatment facilities, pumps, and fire hydrants, along with upgrading or retrofitting storage tanks and wells. This includes:

- 34 miles of main
- 6 wells
- **Total storage: 705,000 gallons**
- 357 hydrants
- 7 booster pumps

**Cal Water has invested more in infrastructure maintenance and upgrades in the last decade than any other regulated water provider in California.**

## Community Safety & Partnerships

We are passionate about investing in the communities we serve and improving the quality of life for our customers. We are proud to provide volunteer hours and financial support to local organizations, including, among others: **Community Food Pantry of King City, Loaves and Fishes, and Monterey County Agricultural and Rural Life Museum.**

## Service Area

**Population Served:** 15,700

**Communities Served:** King City

## Water Supply (Annual Production):

623 million gallons

## Water Use

Active connections: **2,300**

Average daily demand per capita per day: **95 gallons**

Average gallons per service per day: **544 gallons**

## Local Infrastructure Improvement Projects

Cal Water plans to invest more than \$7 million in the King City District from 2022-2024 to:

- Install a new generator to ensure the back-up power necessary to continue to provide a reliable source of water to customers in the event of a wildfire
- Develop new water supplies and improve treatment of existing supplies
- Replace lead service lines within the system and approximately 3,300 feet of aging and less reliable mains
