

Quality. Service. Value.®

# California Water Service

## Overview

California Water Service (Cal Water) serves about 2 million Californians in more than 110 communities, from Chico in the north to the Palos Verdes Peninsula in the south, including residents and businesses in the Stockton District. We are the second-largest retail water provider in the state, and the largest regulated by the California Public Utilities Commission.

**We believe everyone should have access to water that is safe, clean, reliable, and affordable.** Providing this for our customers requires a proactive commitment to infrastructure investment, water quality, conservation, community safety, and equity.

### We are Industry Leaders in:

- **Water Quality:** Our drinking water is among the safest in the nation.
- **Proactive Investment in Infrastructure:** We prioritize upgrades to keep water safe and reliable.
- **Conservation & Sustainability:** We help customers save water while securing new supplies for the future.
- **Low-Income Assistance:** We were among the first to provide bill assistance for low-income customers.
- **Community Safety & Partnerships:** Our partnerships improve community safety and quality of life.

### Cal Water Infrastructure by the Numbers

**7,900** miles of water mains

**1,135** wells

**681** storage tanks

**155,000+** valves

**50,000+** hydrants

**2,010+** sampling stations

**6** surface water treatment plants

**12** wastewater treatment plants

**\$719.7 million** invested in infrastructure projects over the past three years to ensure the continued safety and reliability of your water system

### Service Areas

We provide more than 80 billion gallons of water annually to 110+ communities across California

Quality. Service. Value.®

# Stockton District

Local Service with Statewide Support

The Stockton District was formed in 1926 with the purchase of the water system from Pacific Gas and Electric Company. To meet the needs of our Stockton customers, we use a combination of local groundwater from our wells and purchased water imported by the Stockton East Water District from the Stanislaus and Calaveras Rivers.

## Infrastructure Investments in Stockton

We know that building and maintaining infrastructure are critical to delivering safe, reliable water service to the Stockton District.

Over the last decade, **Cal Water has invested \$114,270,527** locally, including installing new pipes, treatment facilities, pumps, and fire hydrants, along with upgrading or retrofitting storage tanks and wells. This includes:

- 526 miles of main
- 2,999 hydrants
- 56 wells
- 17 booster pumps
- Total storage: 12.1 million gallons

**Cal Water has invested more in infrastructure maintenance and upgrades in the last decade than any other regulated water provider in California.**

## Community Safety & Partnerships

We are passionate about investing in the communities we serve and improving the quality of life for our customers. We are proud to provide volunteer hours and financial support to local organizations, including, among others: **Emergency Food Bank, Stockton Shelter for the Homeless, and Stockton Animal Shelter.**
